

Language Learning

Access children's content in English, french, Spanish, Chinese, Russian, Korean, and German.

The catalogue of books is always expanding so keep checking in for new content but you will already find classic titles like Fifty Below by Robert Munsch available in Spanish!

Playlists

Playlist offers you access to pre-made playlists where story books play one after the other. To access this, select the green **Playlists** button in the colourful menu bar.

Play Video

You can create your own playlist too. Simply click on the red **Add to Playlist** button below a story book.

Add to favorites

Add to playlist

To access this, select **Playlists** from the blue menu bar.

TumbleBooks Library

TumbleBooks offers animated and narrated story books, narrated eBooks, traditional eBooks and graphic novels for young kids. Story books are created by taking existing pictures, adding animation, sound, music and narration to produce an electronic picture book which you can read or have read to you almost like a video.

Stream or Download

All of the books, games and videos on TumbleBooks are available exclusively through streaming so it never takes up any space! You need a continuous internet connection in order to access and use content on TumbleBooks.

Software

TumbleBooks will work on an up to date web browser.

Download the free TumbleBooks app from the Android and iOS app stores. The app will let you continue to stream your favourite books, videos and games. Take note that it **does not** allow you to download any of the content for offline use.

Story Books

These animated and narrated books bring the illustrations to life. You may get a shark wagging its tail or a star sparkling or maybe even a bird flying!

Users have the option to automatically or manually turn the pages so take your time sounding out the words if you need it!

Read-Alongs & eBooks

Read-along and eBooks offer the digital version of the book without animation. Read-alongs offer a narration feature but the traditional eBooks do not. Read-alongs & eBooks have chapter menus, bookmarks, notes and the ability to change the font type, size and colour to make reading easier on you!

Graphic Novels

Graphic novels offer digital illustrations and text without animation. Turn the pages by scrolling down the screen and then click the arrows on the top left and right to go to the next chapter.

Videos & Games

Enjoy short 2-5 minute videos from National Geographics on different topics. Simply click **Play Video** and enjoy!

Have fun with some quick games & puzzles under the **Puzzles & Games** tab. Once you find the game you want, just select **Play Game!**
